CRI Green Label Certified	• Industry standard for vacuum cleaner air quality, and cleaning	x	x			x		x	x								x	x																							
AXP Onboard Detergent Dispensing System	• Ensures precise detergent dilution and eliminates chemical waste. Reduced environment impact from chemical manufacturing, through use and disposal.														x																			x					x	x
Carpet DCM: Dual Mode Cleaning	• Adjustable water and detergent dispensing for the cleaning task. Low moisture mode helps prevent the growth of stain and odor causing bacteria and mold extending the life of carpeting.										x			x	x																									
CRI SOA Certified	• Industry standard for restorative extraction cleaning										x	x																													
Sound Level </= 70dBs	• Hospital quiet operation allows cleaning during business hours reducing HVAC, lighting and security resources.		x	x	x	x	x	x	x								x	x	x	x	x		x	x	x	x		x	x				x			x	x	x	x	x	x
Maintenance Free Gel Batteries	• Longer battery life. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.														x		x																				x	x	x	x	x
UL or ETL Listing Of Equipment	• Ensure equipment meets or exceeds recognized safety standards preventing injury.	x	x	x	x		x	x	x	x	x	x	x	x	x		x	x		x									x		x	x		x	x	x	x	x	x	x	x
Smart Solutions/ECO Solution	• Guides the user to select the right water and chemical flow rate for the majority of cleaning needs thereby optimizing water and chemical use and minimizing the environmental impact.														x																				x	x	x	x	x	x	x
Standard Or Optional HEPA Filter	• Provides fine filtration and captures more debris for a cleaner and healthier facility.		x	x		x	x														x									x										
One Button Operation		x	x	x	x	x	x	x	x	x	x								x	x	x	x	x	x	x	x		x	x				x						x	x
Contains Recyclable Plastic	• Plastic used can be recycled rather than put into a landfill.	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x			x		x	x	x	x		x	x	x	x		x	x		x	x	x	x	x	x
Contains Recyclable Metal	• Metal used can be recycled rather than put into a landfill.	x	x	x	x	x	x	x	x	x	x	x	x	x	x		x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x
Uses Recyclable Cardboard or Paper Packaging	• Paper used can be recycled rather than put into a landfill.	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x			x	x	x	x	x	x		x	x	x	x	
Uses Cardboard Free Packaging	• Larger machines are simply shrink wrapped eliminating cardboard.																											x	x							x					x	x
Contains Triple Plated Steel Components	• Triple plating provides a highly scratch and corrosion resistant coating extending the life of the component and the machine. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.																x	x																		x			x	x	x	x
Contains Rotomolded Polyethylene	• Durable recyclable plastic that resists chemicals, chips, cracking and dents. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.								x	x	x	x	x	x	x	x	x	x			x		x	x				x	x				x			x	x	x	x	x	x	x
Single Spray Jet Technology	• Reduced use of natural resources Vs machines with multiple nozzles and associated plastic tubing.										x		x	x	x																										
Vacuum Motor >/= 1,000 Watts	• Powerful pick up performance removes more soil from the facility for a healthier environment and reduces slip and fall risks.			x	x	x	x																						x	x										
Safety Yellow Cord	• Reduces the chance of slip and fall injuries.	x	x	x	x	x	x	x	x	x	x	x								x					x	x	x	x	x		x		x	x								
10 Meter Cord	• Reduced length uses less natural resources.				x																																					
15 Meter Cord	• Results in less wear and tear on the cord during cleaning due to fewer plug/unplug cycles for longer life.			x		x	x												x	x	x	x	x	x					x	x										
Detachable Cord	• Results in less wear and tear on the cord during cleaning for longer life. • Provides more protection during storage for longer life.					x					x	x																				x										
Grounded Cord	• Provides safety for the operator against electrical shocks.	x	x		x	x	x	x	x	x	x	x	x						x	x	x	x	x	x						x	x	x	x	x	x						
Double Insulated	• Provides safety for the operator against electrical shocks.			x

Green Machine Feature	**Green Benefit**	Reliavac	PowerOne	CaniStar	QuickStar	BackVacuum	Adgility	CarpeTwin	CarpeTriever	AquaSpot	AquaClean	Aqua Pro	Aquamatic	AquaMax	AquaRide	Select Sweep	Terra 128R/132R	Terra 3700	SD130	Pacesetter	Matador	20UHS	20 Plus	20 Ultra	VS 20	UHSB	Propanes	2700	Advolution	Sprite	AWD	Adspray	Reel Cleaner	HydroDry	Adspray	Adhancer Walk-Behind	14e	M17	MicroMax	BA5321	Convertamatic	Advenger
Exhaust Filter	• Final filter for the working air and traps carbon brush dust generated from the motor for a cleaner and healthier facility.		x			x	x																						x											
Non-Marking Bumper	• Reduces the use of labor and chemicals to clean marks from walls.	x	x	x				x	x										x	x	x	x	x	x			x													x	
Non-Marking Or Mark Resistant Wheels	• Reduces the use of labor and chemicals to clean marks from floors.	x	x	x	x			x	x	x	x	x	x	x	x				x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x
Rubberized Wheels	• Quiet operation??		x	x	x			x	x	x	x	x	x	x	x				x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x	x
Edge Cleaning Guide Wheel	• Reduces the damage caused to a facility and the subsequent natural resources to repair it.		x					x	x									x							x	x			x						x			x	x	x	x
Adjustable Handle, Steering Wheel or Seat	• Better ergonomics reduces the risks associated repetitive stress injuries and accommodates workers of various statures.		x					x			x				x			x									x	x		x		x						x	x
Double Articulated Floor Tool	• Prevents floor tool from "heeling" resulting in increased pick up performance and a cleaner healthier facility.			x	x	x	x																																	
Cord Wrap/Cord Storage	• Prevents damage from loose and unmanaged cord. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.	x	x	x	x		x	x	x		x	x							x	x	x	x	x	x						x	x		x	x						
Full Bag Indicator	• Informs operator when bag is filling is optimized. Prevent premature vacuum motor failure and replacement. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.		x		x			x																																
Optional Or Standard Bagless Operation	• Reduces the use of natural resources.			x	x												x	x												x										
Optional Or Standard Off Floor Or Aisle Cleaning Wand or Tool	• Reduces the need for the production and resource waste for additional and specialized equipment.	x	x					x	x	x	x	x	x	x	x			x																					x	x
Tool Free Brush/Broom Height Adjustment	• Reduces the need for production and resource waste for tools.	x	x					x	x		x		x	x	x																										
Vacuum Accessories	• Ensures the right tool is available for the cleaning task at hand. Provides better cleaning performance for a cleaner and healthier facility.		x	x	x	x	x	x	x																					x										
Two Or More Levels Of Filtration	• Captures more debris for a cleaner and healthier facility. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.	x	x	x	x	x	x	x	x																					x										
Paper Filter	• Recyclable and renewable resource.	x	x	x	x	x	x	x	x															x	x	x		x	x												
MicroStat Filter	• Provides fine filtration and captures more debris for a cleaner and healthier facility.	x	x					x	x																																
Washable Filter	• Non-disposable filters reduces natural resources consumption.		x	x	x		x	x	x		x			x	x		x	x											x	x										x
Motor Protection Filter	• Protects the and extends the life of the motor. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.		x	x	x	x	x	x	x		x			x	x									x	x					x										x
Optional Or Standard Cloth Shake Out Dust Bag	• Reusability minimizes the consumption of natural resources.	x		x	x	x	x		x																					x										
Tapered Hose	• Improves air flow for increased pick up performance and cleaner healthier facility.			x	x	x																																		
Crush Proof Hose	• Ensure longer life with fewer replacements. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.		x	x	x	x	x	x	x	x	x	x	x	x																x	x		x							x
Telescopic Tube	• Better ergonomics reduces the risks associated repetitive stress injuries and/or workers of various statures.		x	x	x	x	x	x																																

		Vacuums								Extractors						Sweepers			Floor Machines/Burnishers										Wet Dry			Specialty				Auto Scrubbers						
Green Machine Feature	**Green Benefit**	Reliavac	PowerOne	CaniStar	QuickStar	BackVacuum	Adgility	CarpeTwin	CarpeTriever	AquaSpot	AquaClean	Aqua Pro	Aquamatic	AquaMax	AquaRide	Select Sweep	Terra 128R/132R	Terra 3700	SD130	Pacesetter	Matador	20UHS	20 Plus	20 Ultra	VS 20	UHSB	Propanes	2700	Advolution	Sprite	AWD	Adspray	Reel Cleaner	HydroDry	Adspray	Adhancer Walk-Behind	14e	M17	MicroMax	BA5321	Convertamatic	Advenger
Onboard Tool Storage	• Ensures the right tool is available for the cleaning task at hand. Provides better cleaning performance for a cleaner and healthier facility.		x		x	x	x	x			x	x			x																	x								x	
Tool Free Brush Removal	• Helps ensure maintenance activity takes place, extends the life of the product, reduces the production and need for tools and provides for a cleaner and healthier work place.	x	x					x	x		x		x	x	x																				x	x	x	x	x	x	x
Tool Free Click Off Brushes	• Helps ensure maintenance activity takes place, extends the life of the product, reduces the production and need for tools and provides for a cleaner and healthier work place. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.																																				x	x	x	x	x	
Tool Free Skirt Adjustment/Replacement	• Helps ensure maintenance activity takes place, extends the life of the product, reduces the production and need for tools and provides for a cleaner and healthier work place. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.																																			x					x	x
Tool Free Squeegee Blade Replacement	• Helps ensure maintenance activity takes place, extends the life of the product, reduces the production and need for tools and provides for a cleaner and healthier work place. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.																																			x	x	x	x	x	x	x
Tool Free Interchangeable Scrub Deck	• Reduces the need for additional cleaning equipment, helps ensure maintenance activity takes place, extends the life of the product, reduces the production and need for tools and provides for a cleaner and healthier work place. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.																																			x				x	x	x
Onboard Spotting/Upholstery Tool	• Reduces the need for the production and resource waste for additional and specialized equipment.									x	x	x	x	x	x			x																								
Optional Or Standard Battery Watering System	• Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.													x	x													x								x					x	x
Onboard Charger															x		x	x										x								x		x	x	x	x	x
Automatic Battery Charger With Cut Off	• Ensures long battery life and reduces resources and waste throughout the production, use and disposal life cycle.																x	x									x	x								x		x	x	x	x	x
Flexible Pad Driver	• Provides better cleaning and reduces the need for additional chemicals or processes to clean.																					x	x	x	x	x	x	x										x	x	x		
Dust Control	• Reduces dust within the facility. Helps create a cleaner and healthier facility.																x	x						x	x	x		x	x													
Dual Capacitor Motor	• AC motor w/capacitors draws less amperage than DC motor of same size under same conditions.																			x																						
Hospital Grade Plug	• Eliminates waste associated with adding a hospital grade plug in facilities where it is required.																			x																						
Safety Switch	• Provides safety and protection from incorrect usage which may result in damage to the equipment or the facility.																		x	x	x	x	x	x							x			x								

		Vacuums								Extractors						Sweepers			Floor Machines/Burnishers										Wet Dry			Specialty				Auto Scrubbers					
Green Machine Feature	**Green Benefit**	Reliavac	PowerOne	CaniStar	QuickStar	BackVacuum	Adgility	CarpeTwin	CarpeTriever	AquaSpot	AquaClean	Aqua Pro	Aquamatic	AquaMax	AquaRide	Select Sweep	Terra 128R/132R	Terra 3700	SD130	Pacesetter	Matador	20UHS	20 Plus	20 Ultra	VS 20	UHSB	Propanes	2700	Advolution	Sprite	AWD	Adspray	Reel Cleaner	HydroDry	Adspray	Adhancer Walk-Behind	14e	M17	MicroMax	BA5321	Convertamatic	Advenger
Thermal Overload Protection, Motor	• Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.		x	x	x	x	x	x									x	x			x									x				x						
Break Away Squeegee	• Reduces the damage caused to a facility and the subsequent natural resources to repair it.																												x	x					x		x	x	x	x	x
Traction Drive																	x	x																	x			x	x	x	x
Pad Assist Drive	• Eliminates drive mechanism and this reduces resources and waste throughout the production, use and disposal life cycle for a drive system.																									x											x	x	x		
Optional Or Standard Side Brooms	• Provides better cleaning and reduces the need for additional equipment or processes to clean.														x		x	x																					x	x
Multiple Surface Cleaning With One Machine	• Reduces the need for additional equipment or processes to clean.			x	x	x	x										x	x	x	x	x									x										
Battery Low Voltage Cut Off	• Ensures long battery life and reduces resources and waste throughout the production, use and disposal life cycle.													x	x		x	x									x	x						x		x	x	x	x	x
Battery Charge Status Lights														x	x		x	x							x	x		x	x						x		x	x	x	x	x
Hour Meter	• Helps ensure maintenance is completed at the proper interval extending the life of the machine which reduces resources and waste throughout the production, use and disposal life cycle of the machine.														x		x	x									x	x	x							x				x	x
Filter Shaker	• Ensures long filter life and reduces resources and waste throughout the production, use and disposal life cycle. •Ensure optimum pick up performance for a cleaner and healthier facility.																x	x																							
Backup Alarm															x													x	x												x
Adjustable Down Pressure	• Reduces excessive wear to floor finishes and extends the time between chemical intensive strip and recoats.																																			x	x	x	x	x	x
Large Recovery Tank Opening, Easier Cleaning	• Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.										x	x	x	x	x										x	x		x	x				x			x	x	x	x	x	x
Easy Flow Drain Hose	• Helps prevent personnel from coming in contact with contaminated water and cleaning chemicals. Less splashing reduces additional cleaning resources.														x																					x		x	x	x	x
Variable Speeds During Operation	• Typically quieter sound. Optimizes use of power for the cleaning task at hand. Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.													x	x					x												x			x				x	x
Splash Skirts	• Cleaner and healthier facility and reduces the risk of slip and falls.																			x															x			x	x	x	x
Key Preventing Unauthorized Operation	• Provides safety and protection from unauthorized use by untrained personnel which may result in damage to the equipment or the facility.																x	x							x	x	x	x	x							x			x	x	x	x
Complete Tank Draining	• Helps prevent the growth of stain and odor causing resulting in a healthier work environment. • Ensures long product life, reduces environmental impact and reduces resources and waste throughout the production, use and disposal life cycle of the product or component.									x	x	x	x	x	x														x	x		x				x	x	x	x	x	x	x
Wide Variety Of Brushes Or Brooms To Match The Cleaning Task	• Reduces excessive wear to floor finishes and extends the time between chemical intensive strip and recoats. • Protects end extends the life of carpeting ensuring long carpet life and reduces resources and waste throughout the production, use and disposal life cycle.										x								x	x	x																x	x	x	x	x	x
100% Water Pick Up On Turns	• Cleaner and healthier facility and reduces the risk of slip and falls.																																			x	x	x	x	x	x

Full Recovery Tank Indicator	• Ensures long vacuum motor life and reduces resources and waste throughout the production, use and disposal life cycle.																																		x					x
Sight Tube Indicating Solution Fill Level											x	x	x	x																					x			x	x	x	
Automatic Full Tank Shut Off	• Protects the vacuum motor. Ensures long vacuum motor life and reduces resources and waste throughout the production, use and disposal life cycle.										x	x	x	x	x														x	x		x			x	x	x	x	x	x	x
Removable Recovery Or Solution Tank	• Provides easier cleaning. Ensures long life and reduces resources, environmental impact and waste throughout the production, use and disposal life cycle. Thorough cleaning helps prevent the growth of stain and odor causing resulting in a healthier work environment.									x	x																		x							x	x				x
Optional Or Standard Recovery Recycling System	• Reduces water and chemical waste. Reduced environment impact from chemical manufacturing, through use and disposal.																																						x	x
Scrubber Compound Wheels	• Increased traction and safety helps prevent damage to the facility or the machine and the use of natural resources to repair them.																																				x	x		x
Gel and Wet Acid Battery Onboard Chargers	• Ensures battery charger is compatible with both types of batteries. Avoids obsolescence and use of natural resources for replacement chargers.														x		x	x																		x	x	x	x	x
Rider Machine	• More productive operators after use.														x			x									x	x													x
Clear View Sight Lines On Rider	• Reduces the possibility of damage to the facility and the subsequent natural resources to repair it.														x			x									x	x													x
