

Education Solutions

Productivity | Performance | Lasting Value

Creating a healthier
environment for
enhanced learning

The challenge of increasing cleanliness and productivity.

Educational facility floor surfaces present unique challenges to the building maintenance staff. With the need for daily cleaning and the presence of students for many hours each day, you must carefully balance your cleaning requirements with limited time and labor resources. Advance cleaning solutions help you meet these challenges head-on and reduce the amount of labor and resources required. Our unique and innovative technologies can actually help you improve the overall healthiness of your facilities and at the same time, increase your cleaning productivity.

A healthier environment improves the learning process.

Minimizing environmental impact.

You also need to carefully consider the health, air quality, safety and environmental effects of your cleaning practices. Our revolutionary and patented floor care solutions can help you reduce water and chemical consumption, improve indoor air quality and reduce the overall environmental impact of your floor cleaning practices.

Cleaner, dryer, safer.

Advance has a wide selection of equipment to help you create a safer environment for students and staff. The ability to scrub floors clean and dry in one pass or remove floor finish without nauseous stripping chemicals reduces risk by minimizing chemical fumes, slippery floors and slip-and-fall accidents. And superior, true Certified H.E.P.A. filtration in Advance vacuums keep dust to a minimum, improving indoor air quality and helping to eliminate allergic reactions.

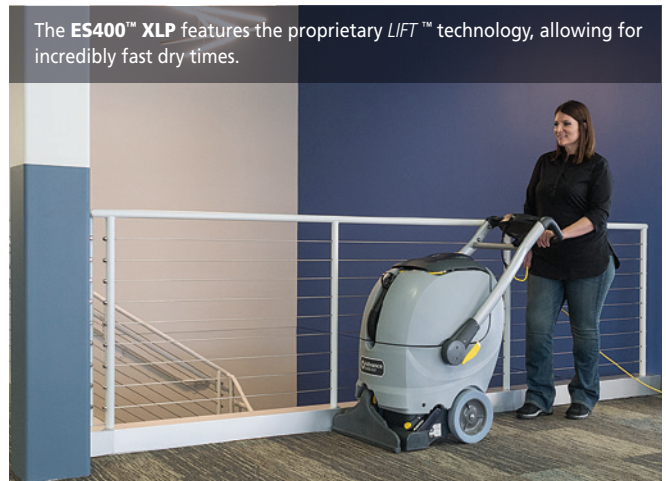

Streamline your procurement process.

With the widest range of floor cleaning solutions in the industry, Advance can satisfy all your equipment needs from one source, further increasing your efficiency and labor utilization. Choose from a full line of automatic scrubbers, floor machines, burnishers, vacuums, carpet extractors and sweepers—all engineered with superior durability to withstand the daily use and frequent abuse of educational environments. And 600 certified dealer locations nationwide is your assurance of industry-leading support when you do need parts or service.

The small, low-profile **Advance SC351™** battery-powered scrubber improves access and maneuverability, cleans in all directions and keeps water contained under the deck to easily deliver a scrubbed, dry surface.

The **E5400™ XLP** features the proprietary **LIFT™** technology, allowing for incredibly fast dry times.

« On the cover: The Advance **SC750™ REV™** features a large 28 inch scrub path and revolutionary random orbital scrubbing technology, to remove floor finish with water only, offering up to 90% labor savings and up to a 70% reduction in water and chemicals versus conventional stripping.

PORTFOLIO OF OVER 125 CLEANING SOLUTIONS

VACUUMS

EXTRACTORS

SWEEPERS

Our compact, maneuverable **Advance SC3000™** Rider Scrubber lets you scrub more square footage with less operator fatigue, and features Quiet Mode™, making daytime cleaning viable.

The lightweight **Adgility™** backpack vacuum features an innovative ergonomic frame for superior comfort and support, plus easy, mess-free bag changes.

The revolutionary REV™. Remove floor finish with water only.

Now there's a superior daily scrubber that can also eliminate the need for chemical floor stripping. REV random orbital scrubbing technology can remove multiple coats of floor finish in a single pass to strip up to 90% of the labor out of conventional floor stripping—and reduce water and chemical consumption 50-70%.

The **SC500™ REV™** is a superior daily scrubber that can also remove floor finish with water only.

REV™ Advantages for Education Here's what our customers have to say:

"Our strip and recoat crews used to consist of four people; with orbital scrubbers, we were able to reduce it to one person and reassign the other people to other work that would not have been completed."

"In the past, it required two days to prep the floor and another day to coat the floor. With orbital scrubbing technology, we were able to complete the prep work in five hours and coat the same day—that's a 67% reduction in time."

"We were able to reduce our summer cleaning operations by a full week."

"We really like orbital scrubbing for the enhanced worker safety benefits; we have experienced a number of slip-and-fall incidents due to stripping chemicals over the years; orbital scrubbing removes a great deal of these risks for us."

"We view orbital scrubbing technology as a major budget savings for the district: no stripper costs; no neutralizer; no safety equipment to protect staff from exposure to chemicals; extra productivity to get other tasks done that might otherwise have been uncompleted."

FLOOR MACHINES & BURNISHERS

SCRUBBERS

Supporting education, for over 100 years.

Advance floor and surface cleaning equipment is used in all types of educational facilities – from K-12 schools to colleges and large universities, including indoor classrooms, offices, entryways, hallways, auditoriums and gymnasiums, plus outdoor applications including parking facilities, athletic fields, and sports complexes. No matter the needs of your educational facility, the Advance commitment to superior value, reliability and efficiency is found in everything we make, and everything we do.

Global reach. With a local commitment.

With hundreds of locations Nationwide, the Advance certified dealer network assures customers receive personal service, expert advice, responsive assistance, and complete support and parts availability — all backed by one of the nation's leading and most longstanding professional floor cleaning equipment brands. For the best overall cleaning solutions for your educational and outdoor surface requirements, Advance is the supplier to partner with, and to stay with.

Nilfisk

Join us at Nilfisk University, where our community of equipment users, dealers, product engineers and managers, sales reps and service technicians gather to learn, teach and share at all levels and across all subject areas.

Nilfisk University is free to all partners. To apply for admission, complete the application at www.NilfiskU.com/apply.
