

# Advance Cyclone Cleaning Technology

High-Pressure Surface Cleaning and Water Recovery / Recycling Systems

Smart cleaning.

A Nilfisk-Advance Brand

# ***With Advance's Revolutionary Cyclone™ Surface Cleaning Technology... Outdoor Surface Cleaning Will Never Be The Same.***

## **CY210™**

High-Pressure Surface Cleaning and  
Water Recovery / Recycling System

### ***Features:***

- Walk-behind unit that works with existing pressure washing pumps and equipment, or with complete trailer system
- 24 inch (61 cm) cast aluminum cleaning head provides 18 inch (45.7 cm) cleaning path
- Deep cleaning, consistent pressure washing
- Environmental approach recovers water and cleans without chemicals
- Full recovery of water without use of a vacuum

## **TR5000™ / TR5500™**

High-Pressure Surface Cleaning and  
Water Recovery / Recycling System

### ***Applications:***

- Sidewalks
- Outdoor Concrete Surfaces at Parking Decks and Lots
- Outdoor Entertainment Venues
- Universities
- Airports
- Corporate Campuses
- Hard-Surface Outdoor Areas

### ***Features:***

- Cyclone cleaning technology removes ground-in dirt and grime to restore surfaces to like-new conditions.
- One-pass cleaning drastically reduces cleaning time and provides faster return on investment.
- Chemical-free cleaning and water recovery/recycling reduces water use, aids EPA compliance and offers the most environmentally friendly outdoor surface cleaning available.
- The fully integrated system eliminates traditional pressure washing hassles of standing water, ineffective vacuum systems and labor-intensive operation and maintenance.
- Provides convenient transport, water supply and pressure for Advance CY210 unit.
- Available with or without recycling and water heater.
- Provides 3,600 psi (248 bar) @ 5 gpm (19 lpm) of cleaning power.
- Easy clean out tanks system.

Advance now offers equipment for every municipal and outdoor cleaning and maintenance application. For concrete and asphalt surfaces like airport tarmacs and city streets, and, for congested areas with pedestrian litter like university campuses and city parks, Advance has a full line of sweepers, scrubbers, and pressure washer/recovery systems. As a result of over 100 years of innovation, plus a decade of equipment company acquisitions, Advance is the up and coming cleaning powerhouse for public works, municipal service providers, and more.

**CY5000™ / CY5500™**  
High-Pressure Surface Cleaning and  
Water Recovery / Recycling System

#### *Applications:*

- Parking Garages and Lots
- Resorts and Theme Parks
- Sidewalks and Roadways

- Environmental approach contains water and cleans without chemicals
- Full recovery of water without the use of a vacuum
- 40 inch (101.6 cm) cleaning head with 34 inch (86.4 cm) cleaning path and no overspray
- Front wheel power steering
- Triplex plunger pump capable of 4,350 psi (300 bar) at 5.5 gpm (21 lpm)

## Cyclone 4006™

Ultra High Pressure Hard Surface Cleaner

### Applications:

- Runway Rubber Removal
- Paint Line Removal
- Pavement Markings and Coatings Removal

### Features:

- Designed Specifically for Airport Applications
- Exceptional Maneuverability
- Speed Infinitely Adjustable from 0 to 17 mph/27 kph
- Completely Self Contained One Person Operation
- Climate Controlled Cab
- Cantilevered Cab Design Provides Operator Direct Line-of-Sight View of Cleaning Path
- Remote Viewing Camera Gives Operator 360 Degree Visibility with No Blind Spots
- 2 Permanently Mounted Cyclone Cleaning Heads Switch from Rubber Removal to Paint Line Removal in Minutes
- Only 1,600 Gallons/6,056 Liters of Water Required
- Onboard Recovery and Waste Separation
- Automatic Simultaneous Separation of Waste from Cleaning Water
- Recovery System Not Dependant on Surface Seal Eliminating Leakage or Runoff
- External Vacuum Source Not Required
- Surfaces Left Clean and Usable in Minutes
