

SW900™

Walk-Behind Battery Sweeper

Smart cleaning.

Single hand hopper removal and installation with wheels to facilitate easy transport for dumping.

Hood opens providing full maintenance and service accessibility to the battery compartment.

All brooms are adjustable from the operator's position.

Single-stage high capacity dust control system for more effective dust control. Access filter without tools.

Time-saving maintenance: Broom replacement, and other routine maintenance, can be performed without tools.

Handlebar adjusts to fit a wide range of users and folds to provide convenient transport and storage.

SW900™

Walk-Behind Battery Sweeper

Designed for Rugged Industrial Sweeping...

The Advance SW900™ walk-behind sweeper for both indoor and outdoor use offers effective dust-free removal of dry debris. The large main broom combined with dual side brooms will enhance your everyday productivity and cleaning results. The SW900 is an ideal sweeper for cleaning contractors, industry and manufacturing, schools, warehouses, exhibitions, and entertainment facilities.

Total control from the operator's position

- All controls can be accessed from the operator's position.
- Comfortable to maneuver with ergonomic handlebar.
- New propulsion control bar provides single hand operation.
- Simple controls and security using key switch.

User friendly design

- Single hand hopper removal and transfer.
- Tools-free service of all routine maintenance items.

Higher cleaning performance and productivity

- Fast and effective sweeping with direct throw design.
- Independent side broom controls on handle.
- Dual side brooms combined with wide main broom for edge cleaning and maximum productivity.
- Simple standard manual filter shaker.
- Run time up to 3 hours on a single charge.

Ideal applications include:

- Industry and Manufacturing
- Education
- Warehouses
- Airports
- Entertainment Facilities
- Sidewalks

Control panel with key switch, battery charge indicator and hour meter.

Wet sweep bypass protects the filter from water fouling when sweeping in wet conditions.

An on-board charger provides the convenience of charging anywhere a power outlet is available.

Technical Specifications

Model	SW900™
Sweeping System	Direct throw with dual side brooms
Maximum Productivity	50,850 ft ² /hr (4,725 m ² /hr)
Cleaning Path - Dual Side Brooms	41 in (105 cm)
Main Broom (Length x Diameter)	24 in (60 cm) x 10.4 in (27 cm)
Main Broom Operating Speed	420 rpm
Side Broom Diameter	(2) 12 in (32 cm)
Debris Hopper	
Volume	2.1 ft ³ (60 L)
Weight	65 lb (30 kg)
Dust Control Filter	
Filter Area	21 ft ² (1.9 m ²)
Filter Type	5 - 10 micron
Shaker	Manual
Maximum Travel Speed (Forward)	2.8 mph (4.5 km/hr)
Main Motor (propulsion/main broom/dust control)	0.9 hp (680 W)
Batteries	12 Volt, 242 Ah C20 Wet or 12 Volt, 189 Ah C20 Gel
Battery Charger	Onboard 115 VAC / 12 VDC, 20 amp
Dimensions (L x W x H)	55 in x 37 in x 43 in (139 cm x 95 cm x 110 cm)
Weight with Batteries	
GVW	390 lb (176 kg)
Empty	315 lb (143 kg)
Sound Level*	70 dB A
Part Number	56383328 with (2) 242 Ah wet batteries 56383329 with (2) 180 Ah maint-free batteries

*ISO 11201, ISO 4871, EN 60335-2-72 (LpA)
