

**OUTDOOR SCRUBBERS & SWEEPERS**  
**OUTDOOR VACUUM SWEEPERS**  
**MEDIUM PRESSURE SURFACE CLEANING SYSTEMS**

Advance now offers equipment for every municipal and outdoor cleaning and maintenance application. For concrete and asphalt surfaces like airport tarmacs and city streets, and, for congested areas with pedestrian litter like university campuses and city parks, Advance has a full line of sweepers, scrubbers, vacuum litter sweepers, and pressure washer/recovery systems. As a result of 100 years of innovation, plus a decade of equipment company acquisitions, Advance is the up and coming cleaning powerhouse for public works, municipal service providers, and more.

## Advance Cyclone 4500

Low Pressure Surface Cleaning, Recovery and Recycling System

The Advance Cyclone Environmental Surface Cleaning System is the most innovative design in the history of surface pressure cleaning.

The patented cleaning and recovery head thoroughly removes waste and petroleum deposits from concrete and asphalt with absolutely no discharge into the environment and no damage to cleaned surfaces. All water used in the cleaning process is recovered and filtered so all contaminants are removed, contained, and the water is recycled. Nothing is left behind but a clean surface that dries quickly and is usable in

minutes. The LP4500 eliminates dragging hoses, surface runoff, wet feet and polluting the environment.

## Applications

- Transit Authorities
- Airport Ramps
- City Parking Garages and Lots
- Public Works
- City Construction Clean-Up
- Resorts and Theme Parks
- Streets and Roadways
- Factories and Refineries
- Warehouses and Loading Docks
- Environmental Clean-up
- Spill Recovery
- Glycol Recovery

## Features

- Patented 40 inch wide Cyclone Cleaning and Recovery Head efficiently cleans and recovers all debris and residue.
- Closed-loop system captures the water used in the cleaning process, providing for compliance with environmental storm water runoff regulations. All contaminants are filtered out, and the clean water is recycled and reused.
- One-person operation with full control of speeds from 10 feet per minute to 5 m.p.h. using joystick controlled hydrostatic drive.
- Hydraulic 4-wheel power steering provides a tight turning radius and exceptional maneuverability.
- Easy to use multi-functional system, immediately changes from surface cleaning to curb or hand wand cleaning with the turn of a lever.

# Advance RS Line of Compact Vacuum Litter Sweepers

The Advance RS vacuum sweeper removes dust, sand, rock salt, litter, leaves, rocks, bottles and other debris from public pedestrian areas. It features a unique rear-steering system and powerful top-draw a high-performance vacuum fan above the hopper which makes it easy to maneuver over curbs and around obstacles to clean streets, sidewalks, paths, parking lots and congested areas where other sweepers can't reach. The RS 850 and RS1300 models feature a third broom for the flexibility to clean around obstructions as well as cleaning two surface levels simultaneously.

## Advance RS 501™

### Features

- 34 hp diesel engine
- Two large water tanks for dust suppression
- Dual side brooms, 65 inch sweep path
- 3-stage dust suppression system
- Simple and intuitive operator controls
- All-tempered glass operator cab
- Rear-power steering with rear pivoting axle
- 17.7 cubic foot capacity stainless steel debris hopper with 57 inch dump height
- Rear bumper
- Head and tail lights for night cleaning
- Rear vac hose and onboard pressure washer

### Applications

- Campus
- Suburban Mainstreet
- Municipalities
- Transportation Facilities
- Amusement/Entertainment
- Cleaning Contractors
- Government/GSA Federal, State, and Local

## Advance RS 850™ & RS 1300™

### Features

- 65 hp diesel engine – RS 850
- 63 inch sweeping path – RS 850
- 82 hp diesel engine – RS 1300
- 63 inch sweep path (up to 83 inch sweep path using 3rd broom) – RS 1300
- Two side brooms
- Three-stage dust suppression system
- Simple and intuitive operator controls
- All-tempered glass operator cab
- Rear steering with rear pivoting axle
- 30 cubic feet capacity high dump stainless steel debris hopper – RS 850
- 46 cubic feet capacity high dump stainless steel debris hopper – RS 1300
- Rear bumper
- Head and tail lights for night cleanup

### Applications

- Corporate or College & University Campuses
- Municipalities
- Amusement/Entertainment
- Transportation or Parking Areas

## American-Lincoln 4366XP by Advance

### Heavy Duty Sweeper

For areas of 90,000 square feet or more the American-Lincoln 4366XP sweeps a 66 inch path covering over four acres per hour, and can maneuver in tight packed-in areas and over curbs and speed bumps. The 4366XP is

a rugged all steel sweeper with a forward dump hopper for complete loading and unloading, hydraulic pump and cast iron housing, direct throw sweeping, and, it holds 27 cubic feet of 4x4s, 2 liter bottles, sand, gravel, paper and more. Powered by a 47.3 hp Mitsubishi diesel engine, the 4366XP has comfort – ride oversized tires, full time power steering, single foot pedal controls, full instrumentation, and it's simple to operate.

### Applications

- Cement Yards
- Gypsum, Aluminum, and Chemical Plants
- Steel Mills
- Warehouses and Distribution Centers
- Foundries

### Features

- 47.3 hp Mitsubishi diesel engine
- Direct throw sweeping
- Hydraulic pump with cast iron housing
- Heavy gauge all steel construction
- Super duty, large industrial tires
- Adjustable suspension seat with lower back support
- Full time power steering
- Single foot pedal controls
- Tools-free dust filter changes
- Complete instrumentation
- Fully enclosed design

## American-Lincoln SR9772 by Advance

### Tractor Scrubber

The American-Lincoln SR9772 with its 72 inch scrub path, stainless steel 200 gallon solution tank, and 210 gallon recovery tank aggressively scrubs and dries 2.5 acres per hour for maximum productivity. Nearly 600 pounds of

downward pressure, a parabolic breakaway squeegee, hydraulic brush and vacuum fan, all on a New Holland tractor platform make the SR9772 the workhorse of the industry and the only one of its kind.

### Applications

- Airports
- Bus Garages
- Parking Garages
- Manufacturing Plants
- Transit Stations

### Features

- All hydraulic systems and power steering
- Large easy-to-clean solution and recovery tanks
- Wide 72 inch scrub path
- Proven tractor chassis
- All steel construction
- Parabolic break-away squeegee
- Stainless steel solution and recovery tanks
- Rack and pinion power steering
- Excellent line-of-sight from operator compartment
- Extended drain hose and large clean out doors
