Workhorse Solutions Built for Industry

Advance offers the largest selection of industrial solutions with the features, capabilities and size you need to accomplish your cleaning goals. From high-capacity sweepers with dust control, to auto scrubbers that handle everything from tight spaces to wide expanses on plant floors, to efficient combination sweeper-scrubbers that dry sweep and wet scrub in a single pass, and more.

- Remove waste, dirt, and dust from floor surfaces more effectively, minimizing cleaning downtime
- Reduce contamination and process quality risks
- Improve safety of environment, reducing slip and fall danger
- Reduce maintenance costs, improve productivity
- Improve indoor air quality protecting building occupants, and product integrity
- More green cleaning solutions to achieve sustainability goals

Clean more effectively while increasing efficiency and sustainability.

Light Industrial Solutions

Advance equipment and technologies offer efficient and proven results for a wide variety of light industrial applications. You'll benefit from a cleaner and more sustainable facility, and a healthier working environment. Reducing dust and improving floor cleanliness will also protect the integrity of your manufacturing or warehousing processes, while improving product quality and customer satisfaction.

- Superior solutions for warehousing, distribution, logistics and light manufacturing environments
- Versatile machines for dust-free sweeping, scrubbing or sweeping and scrubbing in one machine
- Optional EcoFlex™ System allows water only scrubbing with on-the-fly detergent use only when and where you need it

Independent sweeping and scrubbing functions in the **Advance CS7000** allow one pass sweeping and scrubbing without mixing scrub solution with debris.

Heavy Industrial Solutions

Rugged Advance equipment offers excellent cleaning performance in manufacturing facilities that produce large quantities of waste, spillage or debris. Our heavy-duty machines are designed to clean these harsh environments effectively and efficiently.

- Ideal for machining centers, cement plants, recycling facilities and heavy manufacturing applications
- A variety of engine and battery models are available for demanding environments
- Optional DustGuard™, a patented dust control system, suppresses dust at the side brooms

With its wide cleaning path, high capacity and available DustGuard™ dust control system, the **Advance Proterra™** is the ideal industrial sweeper, making quick work of the largest facilities.

PORTFOLIO OF OVER 125 CLEANING SOLUTIONS

« On the cover: The **Advance CS7000**, the industry's first Hybrid and ePower™ Drive Combination Sweeper-Scrubber, slashes your total cost of ownership, doubles productivity and cuts fuel costs by 45% or more.

SWEEPERS

SWEEPER-SCRUBBERS

Green Cleaning with ROI

Advance green cleaning innovations are engineered to deliver positive impact in environmental sustainability, human-health and the bottom-line, while improving cleaning effectiveness:

- Variable control and chemical-free cleaning solutions that vastly reduce the use of water and detergents
- Onboard water recycling and reclamation systems that significantly reduce water use and waste
- Patented dust control technologies reduce airborne particulates by 71 % compared to competitive systems
- Quieter solutions that reduce noise and disruption, facilitating cleaning during operational hours
- Powerful electric-actuated solutions that eliminate many hydraulic systems and fluids
- Innovative power solutions including rechargeable battery, clean propane, high-efficiency diesel motors and the world's first hybrid powered machines that extend runtime and reduce fuel consumption and CO2 emissions up to 45%
- Advance equipment meets LEED-EBOM cleaning requirements

The **Advance Proterra™** rider sweeper features an operator-visible, forward-facing Clear-View™ hopper, allowing you to dump debris easier and safer.

Sanitary Environment Solutions

For critical sanitary environments, Advance cleaning equipment helps you efficiently maintain the highest possible levels of surface cleanliness. Our solutions will also help you achieve the required levels of air quality and minimize cross-contamination risks.

- Effective cleaning solutions for food and beverage, chemical and pharmaceutical processing, medical manufacturing and cleanroom environments
- More flexible, sustainable cleaning with optional EcoFlex™ System; clean with water only or just the needed detergent
- Reduce noise pollution with efficient battery-powered models

The rugged, low-maintenance **Advance SC800™** scrubber delivers high productivity for 84 minutes of continuous scrubbing per tankful, which reduces dump/refill cycles and helps provide fast ROI.

Outdoor Cleaning Solutions

Building managers place a premium on public safety, property maintenance and facility image. Ensuring these areas are cleaned effectively and efficiently is easily done with Advance equipment. Proactive outdoor maintenance reduces transfer of soils indoors, reducing overall costs while protecting facilities.

- Efficient solutions for parking ramps, airports, recreation centers, amusement parks, and sports complexes
- Maximize productivity with wide sweep paths and low maintenance designs that minimize downtime
- Patented high-pressure surface cleaning technology offers the cleaning force of a category 4 Hurricane with no water waste

The **Advance SW8000™** offers patented dust control technology and an unsurpassed path width for indoor and outdoor power sweeping effectiveness, delivering 71% more productivity than its nearest competitor.

SCRUBBERS

OUTDOOR

**Enhancing industrial productivity
for over 100 years.**

Advance floor and surface cleaning equipment protects the quality of products and processes, and improves working environments, in diverse industrial and manufacturing applications worldwide. Inside or out, no matter the needs of your facility, the Advance commitment to superior value, reliability and efficiency is found in everything we make, and everything we do.

**Global reach.
With a local commitment.**

Advance provides complete partnership management, offering the highest levels of service, logistics and comprehensive support at an international, national and local level. As one of the largest manufacturers of cleaning solutions in the world, with a distribution presence in 70 countries, the Advance certified dealer network numbers over 600 locations in the U.S. alone, assuring personal service, expert advice, responsive assistance, and complete support and parts availability, backed by one of the world's leading and most enduring professional floor care brands. For the best overall cleaning solutions for your industrial and outdoor surface requirements, Advance is the supplier to partner with, and to stay with.
