# Advance AquaClean®

## Carpet Extractors

### CRI Seal of Approval Extractors in Low-Moisture Mode

Advance has a complete line of self-contained carpet extractors that have received the Carpet and Rug Institute (CRI) Seal of Approval in both low-moisture/high productivity and restorative modes.

The AquaClean® 16XP and 18FLX feature Advance's patented Dual Cleaning Mode (DCM) technology for fast dry times, reduced cost to clean, increased productivity and environmental sustainability.

Indirect spray is used in the low moisture/high productivity mode so less chemical and water are used. This extends dump and refill intervals, while allowing the carpet to dry more quickly. Operating the AquaClean® in the CRI Seal of Approval low moisture mode is three times more productive per tank compared with traditional commercial extractors. Traffic can return to the carpet more quickly when cleaned in low moisture mode.

The flip of a switch engages the deep cleaning restorative mode of the AquaClean® 16XP or 18FLX. Increased moisture and aggressive brush agitation loosen tough soils from high traffic areas.

The AquaClean® 16XP and 18FLX incorporate an onboard spotting and upholstery tool and hose allowing the operator to multitask and clean furniture at the same time as the carpet. And the optional, no tools required, hard floor kit converts the AquaClean 16ST, 18ST, 16XP, or 18FLX to a 16 inch or 18 inch auto scrubber for hard floor cleaning.

The AquaClean 18FLX and 18ST feature a flip over handle, so they can be operated as a traditional pull-back extractor or an ergonomic walk-behind.

Advance also offers basic models with fewer features: the AquaClean 16ST and the CRI approved AquaClean 18ST.

### Ideal Applications Include —

- Commercial Office Space
- Retail and Malls
- Hospitality and Gaming
- Restaurants
- Government Facilities
- Healthcare
- Education

#### VALUE FEATURES

High productivity Smart Solutions™ DCM on 16XP and 18FLX

Simple intuitive controls reduce training time.

No tools removable brush and vacuum shoe.

Low sound level reduces operator fatigue.

## AquaClean® 18FLX Shown

18ST and 18FLX have dual operating modes for traditional pull back or high productivity walk-behind extraction.

Smart Solutions™ DCM on 16XP and 18FLX for deep cleaning or high productivity.

Carpet extraction and spotting/upholstery machine in one with integrated hand tool on the 16XP and 18FLX.

Optional hard floor converts any AquaClean® into a hard floor scrubber.

Simple controls make it easy to learn and use.

Fully variable brush height adjustment control.

### VALUE FEATURES

Optional hard floor kit turns any AquaClean into a small scrubber.

## The Advance AquaClean® Technologically advanced and feature rich.

- Smart Solutions™ DCM increases productivity while reducing chemical and water waste. Maintenance or restorative cleaning with one machine and a simple flip of a lever instantaneously adapts to the cleaning needs in your facility.
- The 16XP and the 18FLX are two machines in one with a fully integrated spotting and upholstery machine built in.

### Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Genuine OEM Parts.

**Nilfisk** Genuine OEM Parts

## Optional Accessories

- Hard floor kit converts AquaClean® extractors into an automatic hard floor scrubber
- 16 inch nylon hard floor brush for lighter scrubbing
- 16 inch MidGrit™ 240 hard floor brush for aggressive scrubbing
- 18 inch nylon hard floor brush for lighter scrubbing
- 18 inch MidGrit™ 240 hard floor brush for aggressive scrubbing
- Light duty soft floor wand assembly
- Heavy duty soft floor wand assembly
- Hard floor scrub and vac wand
- Hand tool for upholstery
